## Professional Summary

Frontend developer crafting production-ready web apps with **React, Tailwind CSS, and JavaScript**. Skilled at building **responsive, component-driven UIs**, integrating with **Node.js/MongoDB backends**, and deploying to **Netlify & Vercel**. Passionate about **clean UI/UX** and turning ideas into **real-world, impactful applications**. Open to **remote frontend roles** where I can make an immediate impact.

## Technical Skills

**Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Web Design, Component Architecture

**Familiar with:** Next.js, TypeScript

**Backend (supporting):** Node.js, Express, MongoDB, REST APIs

**Tools:** Git, GitHub, Netlify, Vercel, Figma

## Professional Experience

**Frontend Developer – Independent Projects | Bangladesh (Remote) | April 2024 – Present**

- Built and deployed multiple production-style web applications using React and Tailwind CSS
- Developed responsive, component-driven user interfaces with modern layout patterns
- Implemented authentication flows, dashboards, and CRUD-based features in full-stack projects
- Integrated REST APIs and backend services with Node.js and MongoDB
- Deployed applications to Netlify and Vercel for live demonstration
- Followed clean folder structures and reusable component architecture

### Projects:

- **SafeHands** – Trusted Care Booking Platform (Full-Stack) | [Live](#)
- **AssetVerse** – Corporate Asset Management System (Full-Stack) | [Live](#)
- **HomeHero** – Service-Based Web Platform (Full-Stack) | [Live](#)
- **GameHub** – Modern Frontend UI Project | [Live](#)
- **GreenEarth** – Environmental Awareness Website | [Live](#)

## Education

**BBA (Honours) in Management** – National University, Bangladesh | 2018 – 2022

- Focused on operations, management fundamentals, and business systems
- Developed strong analytical and problem-solving skills applicable to web development

## Additional Information

- Open to **remote roles**
- Available to start immediately
